Construct your kitset by following our instructional video
Not sure which light is right for you?
See our Light Guide.

## Story

"This form is based on the structure of a geometric polyhedron. Every piece is identical, making home assembly easy. I photographed this beautiful flower on the Bibulman track in Western Australia. Our kitsets significantly reduce freighting, which is one of our ways of doing what we can to help preserve our beautiful sea and land environments." - David Trubridge
