

# BASKETS

David Trubridge

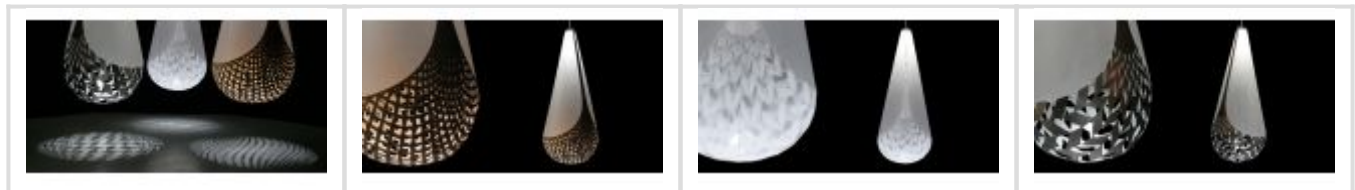

## DETAILS

Assembled feature lightshade  
2100mm h x 850mm dia

## STORY

*"There is a Maori creation myth in which the gods gave to humans three baskets containing the knowledge they needed to live on Earth. They hold the knowledge of the natural world Kete Arounui (bamboo basket), spiritual world Kete Tuaeatea (polycarbonate basket) and our rational world Kete Tuauri (aluminium basket). The knowledge needs to be in balance for us to live harmoniously on Earth. The light source is an energy efficient and long lasting LED spot light." - David Trubridge - Baskets were launched at Milan design week in 2009.*

## BASKETS

Baskets of Knowledge

## KETE ARONUI

Bamboo plywood with plastic clips  
Shrouds hand sanded PETG plastic  
Supplied with LED unit and suspension wire
